Chrysler Sebring Cabrio—Premium Amenities And Year-round Practicality At An Affordable Price (Outside North America)

HIGHLIGHTS

- Expressive and unique D-segment cabrio design with new refreshed hood and wheel designs
- One-touch Power-retractable hard or soft top offers year-round versatility
- 2.0-liter turbo-diesel engine coupled with a six-speed manual transmission is fun-to-drive and offers maximum efficiency
- Premium interior features including tortoise shell accents and innovative Uconnect™ Navigation system with touch screen and voice commands
- High-level of safety and security equipment, including front-seat mounted side air bags, advanced driver and front-passenger air bags, active head restraints and Electronic Stability Control (ESC)

September 15, 2009, Frankfurt, Germany -

The Chrysler Sebring Cabrio delivers what no other cabrio on the road can: Chrysler's sleek and elegant design, fun-to-drive performance, fuel efficiency, a spacious interior that comfortably seats four adults and enough trunk room to hold two golf bags, even when the top is folded down.

With a new smooth appearance hood and new wheel designs, Chrysler Sebring Cabrio gets an updated appearance. Retractable top options include a body-color painted steel retractable hard top and a power cloth top featuring an automatic tonneau cover. Top up or down, Chrysler Sebring Cabrio provides the benefits of a coupe and the true open-air freedom of a cabrio at an affordable price.

As many as four occupants may experience Chrysler Sebring Cabrio's comfortable, roomy interior. Rear-seat passengers have plenty of head and leg room, while best-in-class (356-liters with the top up and 193-liters with the top down) trunk space gives Sebring Cabrio year-round functionality and versatility.

The Chrysler Sebring Cabrio features two fuel-efficient engine options: a powerful 2.0-liter turbo-diesel engine paired with six-speed manual transmission, and a responsive 2.7-liter 24-valve V-6 engine with six-speed Auto Stick.

Chrysler Sebring Cabrio has a rigid body structure that provides a quiet, comfortable ride and reduces cowl shake, even when the top is down. Front-wheel-drive architecture and three-box vehicle design contribute to a body that is 2.5-times stiffer in twist and 1.5-times stiffer in bending than the previous-generation Chrysler Sebring Cabrio. These refinements make the Chrysler Sebring Cabrio body structure stiffer than more expensive cabrios on the market.

Chrysler Sebring Cabrio AT A GLANCE

- **Chrysler Sebring Cabrio offers innovations and premium amenities at an affordable price**
 - Two top options: power cloth and available retractable hard top
 - Hard tonneau cover with automatic latching top
 - Cabrio roof top and windows that retract with the push of a button on the key fob (standard on Touring and Limited models)
 - Factory-installed windscreen

- Uconnect™ Navigation with voice-commands
- Uconnect Phone
- **Sleek, elegant hard-top design offers coupe styling with the fun and open-air freedom of a drop top for comfortable driving 365 days a year**
 - Spacious interior with exceptional cargo room
 - Best-in-class trunk space of 356-liters with the top up and 193-liters with the top down
 - Trunk accommodates two golf bags when the top is retracted; four golf bags when the top is up
 - Sebring Cabrio's D-Segment architecture provides comfortable room for four adults
 - Front seat belts integrated into front seat-backs provide easy rear-seat entry
- **Three engine options provide excellent efficiency and driving fun**
 - Chrysler Sebring Cabrio with available 2.0-liter turbo-diesel engine 103 kW (140 hp DIN) and 310 N•m (229 lb.-ft.) of torque features combined fuel consumption as low as 5.6 L/100 km
 - For customers seeking more performance, a 2.7-liter 24-valve petrol engine produces 137 kW (186 hp DIN) and 256 N•m (191 lb.-ft.) of torque and is paired with a six-speed automatic transmission with Auto Stick
- **Class-leading safety features**
 - Multi-stage driver and front-passenger air bags
 - Front-seat-mounted side air bags for head and thorax protection
 - Low-risk deployment air bags
 - Four-wheel-disc Anti-lock Brake System (ABS)
 - Driver and front-passenger active head restraints
 - Electronic Stability Control (ESC) with Brake Assist and all-speed traction control
 - Tire-pressure Monitoring (TPM)
 - Available Uconnect Phone
 - Available Uconnect Navigation with voice commands
