June 4, 2014, Auburn Hills, Mich. - The Jeep® brand recorded the best sales month in its 73-year history in May, both globally (100,207 sales) and in the U.S. (70,203 sales). May marks the third consecutive month that the brand has set all-time global and U.S. monthly sales records.

"After setting back-to-back annual sales records the past two years, the Jeep brand has now set three consecutive monthly sales records – topping 100,000 global sales and 70,000 U.S. sales in May," said Mike Manley, President and CEO – Jeep Brand, Chrysler Group LLC. "It is clear that customers across the globe value the unique balance of legendary 4x4 capability and significantly improved fuel efficiency and on-road driving dynamics that the Jeep SUV lineup delivers. We look forward to continuing Jeep sales momentum in 2014, especially as the all-new Renegade arrives in Europe in the fourth quarter."

The Jeep brand's May sales results mark the first time the brand has topped 100,000 global sales in a single month, and the first time it has surpassed 70,000 in the U.S. in a month. In April, the brand recorded its previous best of 85,404 units sold globally and 59,974 U.S. sales.
