Clark, Bradley

Vice President - Head of Engine and Transmission Manufacturing, FCA - North America

Bradley Clark was named Vice President - Head of Engine and Transmission Manufacturing, FCA - North America on Oct. 14, 2014. In this role, he assumes responsibility for all Powertrain manufacturing facilities in the United States and Canada. Most recently, Clark was General Manager for Transmission and Component Operations for FCA US LLC, formerly Chrysler Group LLC.

Clark joined Chrysler Corporation in 1988 as a plant quality engineer at the Kokomo Transmission Plant. He held various manufacturing positions in suspension, engine and transmission operations at several Kokomo facilities before assuming overall responsibility for all local transmission and casting operations in 2012. In early 2014, his role expanded to include oversight of the operations at Toledo Machining (Ohio) and Etobicoke Casting (Ontario, Canada).

His work and academic background includes:

- October 2014, Vice President - Head of Engine and Transmission Manufacturing, FCA - North America
- 2014, General Manager, Transmission and Component Operations, FCA US LLC (formerly Chrysler Group LLC)
- 2012, General Manager, Transmission and Casting
- 2009, Plant Manager, Indiana Transmission Plant I and II, Kokomo, Ind.
- 2008, Manufacturing Manager, Kokomo Transmission Plant, Chrysler LLC
- 2006, Manufacturing Manager, Indiana Transmission Plant, DaimlerChrysler
- 1988-2006, Various manufacturing positions at Kokomo Transmission, New Castle Machining (Ind.), Kenosha Engine (Wisc.) and Indiana Transmission Plant I and II, Chrysler Corporation
- 1988, Plant Quality Engineer, Kokomo Transmission Plant, Kokomo, Ind.

Clark earned a Bachelor of Science degree in Finance (1988) from Ball State University in Muncie, Ind.
