January 18, 2018, Auburn Hills, Mich. - FCA US LLC wraps the 2018 [North American International Auto Show](#) (NAIAS) taking home five Automotive Loyalty Awards from IHS Markit.

The Jeep® brand was recognized by IHS Markit for the second year in a row for having the highest conquest performance. According to an IHS Markit U.S. owner loyalty analysis, Jeep had the best segment-adjusted conquest performance within the competitive set during the 2017 model year.

The Jeep Grand Cherokee earned its ninth Automotive Loyalty Award for having the highest model loyalty in the non-luxury mid-size SUV segment for the 2017 model year. Jeep Wrangler was acknowledged by IHS Markit for the second year in a row for having the highest model loyalty in the non-luxury compact SUV segment. Ram 1500 was recognized for its second consecutive year for having the highest model loyalty in the non-luxury full-size half-ton pickup segment. And for the sixth time, the Dodge Challenger muscle car was recognized for having the highest model loyalty in the non-luxury mid-size sport segment for the 2017 model year.

"IHS Markit is honored to recognize those automakers, brands and dealer networks that are successfully executing retention and conquest strategies in an increasingly competitive market," said Steve Had, vice president, sales and product marketing solutions, for IHS Markit.

Loyalty is determined when a household that owns a new vehicle returns to market and purchases or leases another new vehicle of the same make, model or manufacturer. This year's awards are based on an analysis of nearly 17.5 million new vehicle registrations during the 2017 model year, which ran from Oct. 1, 2016, through Sept. 30, 2017.

IHS Markit analyzes loyalty throughout the year and regularly works with its customers to effectively manage owner loyalty and conquest efforts through in-depth research and analysis of automotive shopping behaviors, related market influencers and conquest and retention strategies.
