- Value is determined using statistical analysis that incorporates the total cost of ownership of all vehicles for the 2019 model year along with the current market price of those vehicles

June 18, 2019, Windsor, Ontario - The Alfa Romeo 4C was honoured today with a Vincentric Award for Best Value in the Luxury Sports Car category. The Alfa Romeo 4C received the same award in 2017.

The 2019 Alfa Romeo 4C Spider offers driving enthusiasts a mid-engine design inspired by the brand's legendary racing history and represents the essential sportiness embedded in the brand's DNA.

Handcrafted in Modena, Italy, the Alfa Romeo 4C Spider offers seductive Italian styling and a state-of-the-art Formula 1-inspired carbon fibre monocoque chassis that enables an incredible 4.8 kilogram (kg):1 (10.4 lb.:1) power-to-weight ratio. Advanced technologies include the all-aluminum 1,750 cc turbocharged engine with direct-injection, dual intercoolers and variable-valve timing, enabling supercar-level performance.

New standard content for 2019 includes rear backup camera and cruise control, while desirable items like a race-tuned suspension and carbon fibre Italian flag mirrors are part of the options list.

U.S.-based Vincentric has more than a decade of experience in automotive industry data analysis. This is the eighth year of its Best Value in Canada awards. To pick its winners, Vincentric scrutinizes objective data on vehicles in each segment of the market, factoring in everything from the cost of insurance and repair, to fuel consumption, maintenance and depreciation.

"With 10.5 per cent below expected ownership costs, the best fuel economy in its class and low maintenance costs, it's not surprising that the Alfa Romeo 4C outperformed 11 competitor models in the Luxury Sports Car segment," said David Wurster, President of Vincentric.
