FCA Canada: 2020 Ram 3500, 4500 & 5500 Chassis Cab Fact Sheet

August 31, 2019, Windsor, Ontario - Ram Chassis Cab 3500, 4500 and 5500 Chassis Cab trucks are the Ram Commercial brand's halo trucks in capability. Their design reflects a no-nonsense attitude with differentiation across four distinct price and Gross Vehicle Weight (GVW) classes. Ram Chassis Cab 3500, 4500 and 5500 represent Class 3, 4 and 5 GVW ratings. Additionally, Ram offers a unique 9,900 GVW Class 2 Chassis Cab. While keeping true to the work truck mission, Ram Chassis Cab designers worked closely with engineering to give Ram's line of halo-capability trucks an optional level of comfort with the new Limited model for those customers who have an enthusiast's passion and want a fitting truck to handle the weight. Engineered and designed for extreme daily work and to be upfitter friendly, Ram Chassis Cabs are built for an unrelenting duty cycle with direct customer input. Ram's most capable truck line focuses on delivering best-in-class capability and best-in-class total cost of ownership — a leading purchase reason among business owners. The Ram Commercial brand will continue to expand its presence in the vocational truck segment by enhancing the capabilities of Ram's Tradesman series of trucks and vans from half-ton to Class 5, establishing a network of more than 1,000 commercially focused dealers, and expanding commercial and vocational marketing efforts throughout North America.

New for 2020

- Lane Keep Assist
- Adaptive steering
- Body-colour bumpers

Highlights

- Ram Chassis Cab takes capability titles in the most important areas of the segment
- with class-leading 15,976 kilograms (35,220 pounds) of towing and Gross Combined Weight Ratings of 19,504 kg (43,000 lb.)
